

WASTE MANAGEMENT SERVICE GUIDELINES

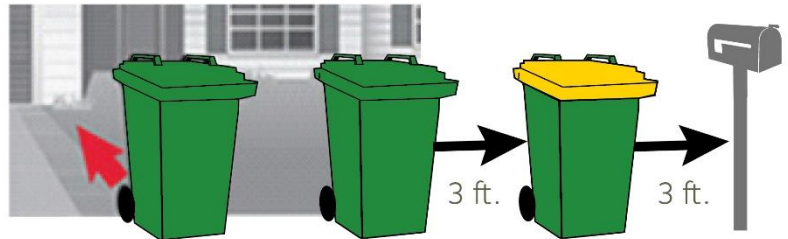

Because of the Coronavirus (COVID-19) pandemic and Federal and State Emergency Declarations, more of us are staying home and practicing social distancing. Households are generating more waste than ever. Waste Management continues to focus our efforts on the collection of trash, which is an essential health and safety service in our communities. We'd like to remind you of important service guidelines and waste reduction tips to keep your neighborhood healthy, clean and safe during this difficult time.

WHAT YOU CAN DO TO SUPPORT OUR DRIVERS

1. All trash must fit inside the cart with the lid firmly closed.
2. Place your cart at least 3 feet away from all objects including your second cart, mailbox, car or trees. The lid opening should face the street with the wheels of the cart toward your house.
3. There are more cars on residential streets during the day. Please help us service your house by keeping carts away from parked vehicles. Our collection trucks need clear access to service your carts.
4. Please have carts at the curb by 6 a.m. on your collection day.
5. Household Hazardous Wastes and Electronics are **NOT ACCEPTED** in your curbside containers.

Proper Cart Placement

Place your cart at least 3 feet away from all objects including your second cart, mailbox, car, or a tree. The lid opening should face the street with the wheels of the cart facing your house.

Place wheels of cart toward house.

Keep space between carts and other objects.

WASTE REDUCTION TIPS

Freeze food to make your supplies last longer and reduce food waste.

Cut out paper towels and utilize the sanitizing cycle on your washer for dish towels & rags.

Store leftover foods in reusable containers instead of single use plastic bags or Polystyrene foam containers.
